Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Power without Borders introduces the Dirigo Energy Institute, aka DEI. In that Dirigo means I Lead, the mission of this nonprofit organization is to lead the world in developing energy sources capable of supplying power in a cost effective and environmentally benign manner. DEI will then make the results available for use by all national governments. This goal is exemplified on the cover with the sun rising on a green world. The book identifies the development of three independent energy sources (sun, atom, and ocean), each of which can be aligned so as to provide all the world s energy needs in perpetuity. A 100 year program is outlined with financing available in principle from one of six business concepts introduced in Power without Borders. None of the six businesses will have an official connection to DEI other than that all will be incorporated with an irrevocable and perpetual requirement to donate 10 of earnings before taxes for nonprofit purposes, starting with DEI.
